Course Overview

This course equips healthcare professionals with the language skills needed to communicate effectively with patients, families, and colleagues in a professional and empathetic manner. It enables you to know and understand some of the nuances you may come across in an English-speaking country.

Session Breakdown

1. **Essential Vocabulary** - To know and understand some of the key vocabulary needed in health and social care settings.
2. **Communicating with Others: Spoken (Formal)** - To understand how and when to speak with patients, families and colleagues formally.
3. **Communicating with Others: Spoken (Informal)** - To understand how and when to speak with patients, families and colleagues informally.
4. **Communicating with Others: Written** - To enhance written communication with colleagues and external parties.
5. **Managing Challenging Situations** - To develop the skills to professionally handle confrontation and stay emotionally grounded under pressure.
6. **Real-World Application and Feedback #1** - To apply your skills in practical, real-world scenarios.
